ADVOCACY: We advocate for people in need, especially the hungry, in order to bring about individual or community change that benefits our society as a whole.

INFORMATION AND REFERRAL: Rather than duplicating services provided by other agencies, when food center workers identify needs beyond food relief, we refer our clients to other agencies that are set up to directly handle those needs. We work directly with the social service agencies throughout Delaware county, as well as the department of public welfare and children & youth services.

WHO WE ARE: all of our centers are staffed by volunteer workers, we are dependent upon donations of food, money and time to continue our work.
